21.06.2017 · If your mother has Borderline Personality Disorder (BPD), it is almost a given that you’ve had a difficult relationship with her at times. A BPD mom can behave in any number of ways, ranging from neglect to over-involvement. Even if your mother hasn’t received an official BPD diagnosis, there are some signs to keep an eye out for. Let’s take a look at some of the many ...

18.05.2018 · Overcoming the Aftermath of Leaving a Toxic Relationship

Toxic relationships are directly related to mental health. Posted May 18, 2018 | Reviewed by Kaja Perina 05.01.2018 · Often, the person with borderline personality disorder can become the central focal point in a relationship and it can feel as if there is little room left for you. Make sure that you are an active participant in your relationship. Express your own feelings, needs, and thoughts. Share your stories, your struggles, and your joys; after all, while your loved one may struggle with BPD, they ...
